Plastic Toolbox

BAW

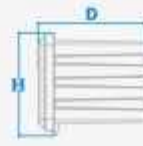

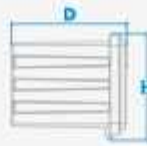

A technical drawing of a mechanical part, possibly a cover or a housing, shown in a perspective view. The drawing is rendered in light gray lines on a white background. The part has a rectangular shape with rounded corners and a recessed area. The word "VER" is visible in a large, bold, sans-serif font, partially cut off on the left side. The drawing shows various lines representing the geometry and features of the part, including a circular feature on the left side and a recessed rectangular area in the center.

Assembly Steps_Fast Mounting

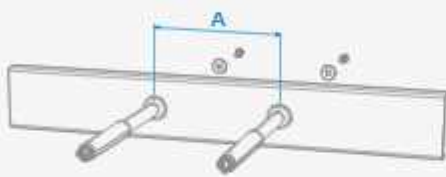

Step_1 Make two holes in the truck chassis and screw the fast connection tubes without tightening.

Step_2 Insert the toolbox until it stops (CLICK) and tighten the screw.

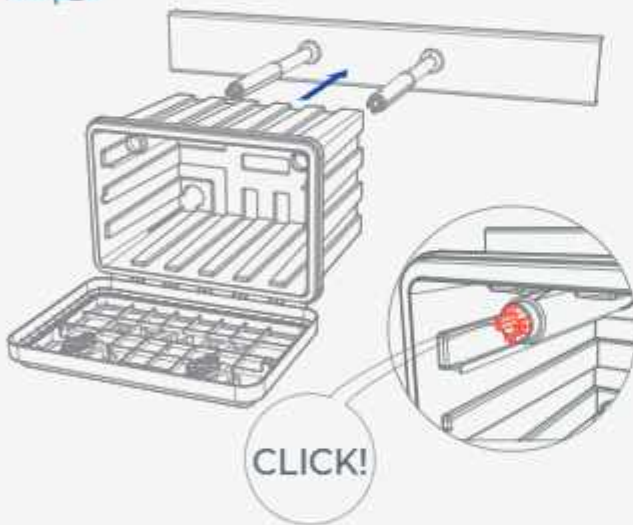

Step_3 Open the toolbox and insert the safety plugs.

Assembly completed.

Technical Features_Fast Mounting

Black Powder Coated Steel Tube

TUBE - A

short, medium and long tube

TUBE - B

customized tube with multi holes

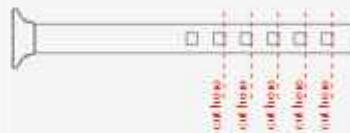

FEATURES TUBE - B

Check which distance "Y" you need and cut as show below. After cutting it is recommended to use an anticorrosive paint.

Bracket & Ring-Holder

Extinguisher Box

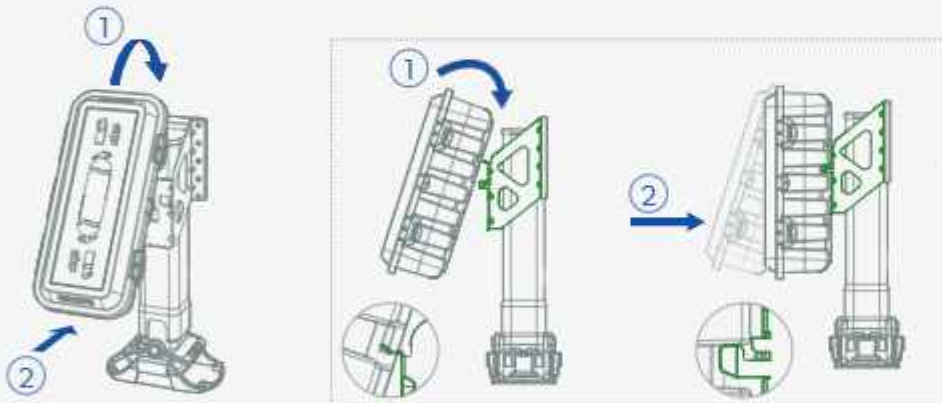

Assembly Steps_Fast Mounting

Step_1 Secure the bracket to the corresponding fixing holes of vehicle landing leg.

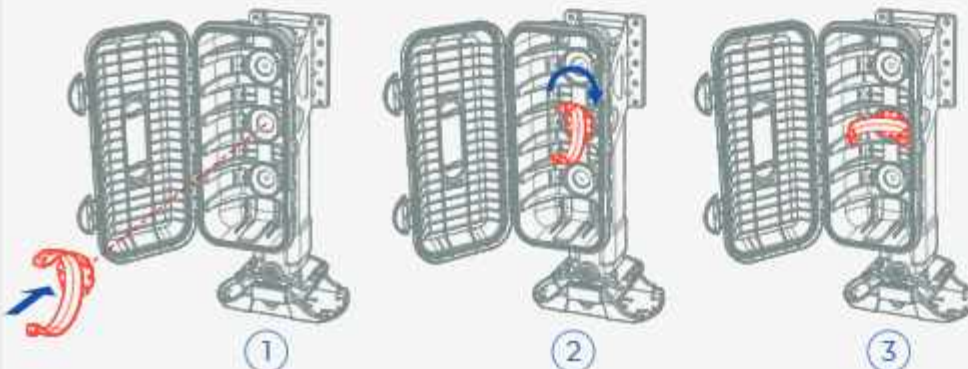

Step_2 Fix the fire extinguisher box to the bracket following the instructions below:

1. hook the fire extinguisher box to the upper wings of the bracket
2. push the fire extinguisher box and be guided by the side wings of the bracket

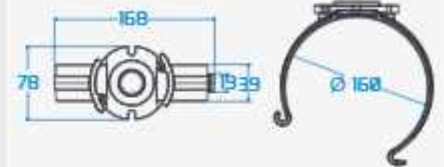

Step_3 Secure the fire extinguisher box to the bracket by following the instructions below:

1. insert the fire extinguisher ring into the central hole of the box body
2. turn the fire extinguisher ring until it stops (as shown in point 3)
3. Assembled completed

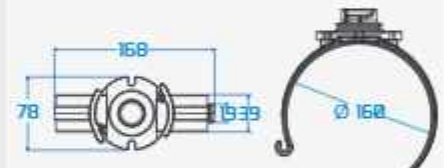

Ring-Holder

Ring-Holder for fire extinguisher of 6 Kg.

Fast Mounting Ring-Holder

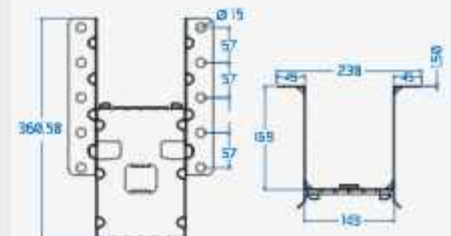

Ring-Holder for Fire extinguisher of 6 Kg.
